AM Warkup Ltd

Hi Stephane

I visited Davids farm on tuesday to look at the farrowing house now that they have some pigs in. They are very pleased with the performace of your feeding system. I was also very impressed for example there were 2 sows next to each other with the same number pigs of the same age and both litters were doing very well ,sow 1 had eaten 9.7 Kg and sow 2 had eaten 6.5 Kg if this was a conventional system you would have fed sow 1 too little and sow 2 too much .!!!!!!!

Also the display showing how the sows are feeding was very interesting to see and the system is also as you said very user friendly.

We have a lot of public holidays in the UK over the next 2 weeks once these are finished I am going to talk to the team at work and see how we could move things forward as I can see a potential market for your product in the UK

Thanks
Andy

Kind Regards,
Andy Hall
